Dear Friends

With great pleasure and honour the Wetterling Teo Gallery introduces one of the most famous pop artists, Tom Wesselmann, to Singapore.

Wesselmann, together with Roy Lichtenstein, James Rosenquist and Andy Warhol, started Pop Art, the most important art movement since the French impressionists, in the beginning of the 1960s.

The pop artists are still very vibrant and influential in the art world today. Tom Wesselmann put together this show for Singapore, and this will be the first show of his works at a Southeast Asian gallery.

Wetterling Teo Gallery is also proud to announce its collaboration with American Express, Ericsson Telecommunication, Glamourette and Rolex here in Singapore. When you use your American Express card for purchases at Wetterling Teo Gallery you will receive 10% discount and triple airline mileage points. The mileage points can be used on the most prestigious airlines in the world.

We look forward to seeing you at the gallery.
