Life must go on

Rama IX Art Museum Foundation

Street of Life(2) 65 x 20cm

In the city, some people have great wealth, but the majority of people struggle.

I would like to present the life style of those people who leave their home towns to work outside on the road, in the "BIG POLLUTION."
As they work, they are not only sick from the dust, heat, exhaust fumes and chemicals, but they are homesick, as well. However, they are rich in hope, as they wait for that big opportunity to come along.

Waiting
35 x 45cm
