Flowery in the Eyes

*The flowery of star thread to be universe
The flowery of universe thread to be large universe
Thread flowery cell to be lives in the picture
All lives knit to thread to be world
Every mind in the world have flowery in the eyes.*

Portrait of Amnart Klanprachar by Prime Minister Chuan Leekpai

INTRODUCTION

We cannot see the universe and the circle of life through our eyes but we can see them through the imagination of our inner wisdom.

During the past few decades, I have distinctly noticed an evolution of my inner development that has resulted from the creation of my art. In my spiritual journey of form and line, I have become in every sense, a student of life. Not that my life is obstructed by my art. Rather, my art has become the cornerstone of my existence, taking my life into increasingly deeper levels of understanding and consciousness.

The work of an artist has always been a reflection of his inner being manifesting itself to the outer world. The more my soul is able to stretch the possibilities of expression, the more capable I am of overcoming the challenges present in my life. As I devote all my life to search for and to understand the truth through Art, I hope that my art will be the inspiration and will bring light to people's heart.

*My art is not only a reflection of my mind state,
it is a channel of the oneness in all.*

Words of the Divine

*The words of the Divine are hidden in the forest
for millions of years, they remain concealed*

The words are struck in the stone

The stone of the sun

From the seeds of the orchid petal

is a relative of the present

walking continuously from the wind

The butterfly, the bird, nature steams with anticipation

Each with a beginning the same as stone and seed

Friendship is a lifeline in the reality of all

Sharing happiness and troubles, since the word is born

In Earth, In Space, In Heaven

Words of him glimmer in the sparkling twilight

With time's solstice of the afterlife
