แนวคิด (concept)

มนุษย์ - มาจากไหน? วิวัฒนาการมาเป็นอย่างไร เริ่มมาตั้งแต่ไหน
วิวัฒนาการ เมื่อ 4 ล้านปีที่แล้ว จาก ape กลุ่มหนึ่ง ที่ป่าดึกดำบรรพ์ จนกลาย
เป็นโฮโมเซเปียนส์ (Homo Sapiens) ซึ่งกำลังจะฉลาด วิจัยกัน ว่าคิดอะไรเป็นต้น
และกลายพันธุ์อย่างไร

CONCEPTS

Human beings - from what did human beings originate ? No one knows how they evolve. Some information confidently proclaims that human beings are descended from the apes that lived in Africa 4 millions years ago. They are known as homo sapiens who conquer the Earth. By the vision, they are evolving genetically.

- possess the excellent and effective brains. Their mind distinguishes them from every other living creature.
- learn worldly matters creatively or destructively.
- create the Renaissance masterpieces, but make war on each other continually.
- struggle with defilements and violence to possess the power.
- need peace and freedom.
- take advantage of other people through capitalism.
- take advantage of the environment without the spirit of preservation.
- live with their own Karma.
- are influenced by nostalgia for the peaceful nature.
- differentiate themselves from animals through imagination and mind.
- love and protect their homeland with a deepening sense of brotherhood.
- shower their families with a warm, gentle, concerned air and love.
- retain their faith in religion and sensible virtue.
- are apostasy.
- search their mind for inspiration and value of life.
- et cetera

The all qualities mentioned are instinctual impulses of human beings

From homo sapiens who believes in magnificent creation of art for the universality of art.

With love.

Chamnan Sararuk

May Peace Be with Thailand and the World.
