Rama IX Art Museum Foundation

The Artist's Gallery has been conceived in order to proffer a stage in which the varying forms of contemporary art present in Thailand today can be exhibited. We hope that this will offer the well known, and perhaps more important the not so well known the opportunity to present their works in order to increase the public awareness and understanding of arts in general.

The Artist's Gallery is very proud to be able to present it's first valuable collection of contemporary art.

This event marks the beginning of what will be a series of both interesting and exciting exhibitions in the near future.

The Artist's Gallery would like to take this opportunity to thank all the artists who have contributed for making this exhibition a success especially for their kind advices and supports.
