MYZ acrylic on canvas 61x81 cm.

MIKI acrylic on paper 34x48 cm.

Thavibu Gallery is pleased to present works by Thaweesak Srithongdee for his new exhibition – FLESH.

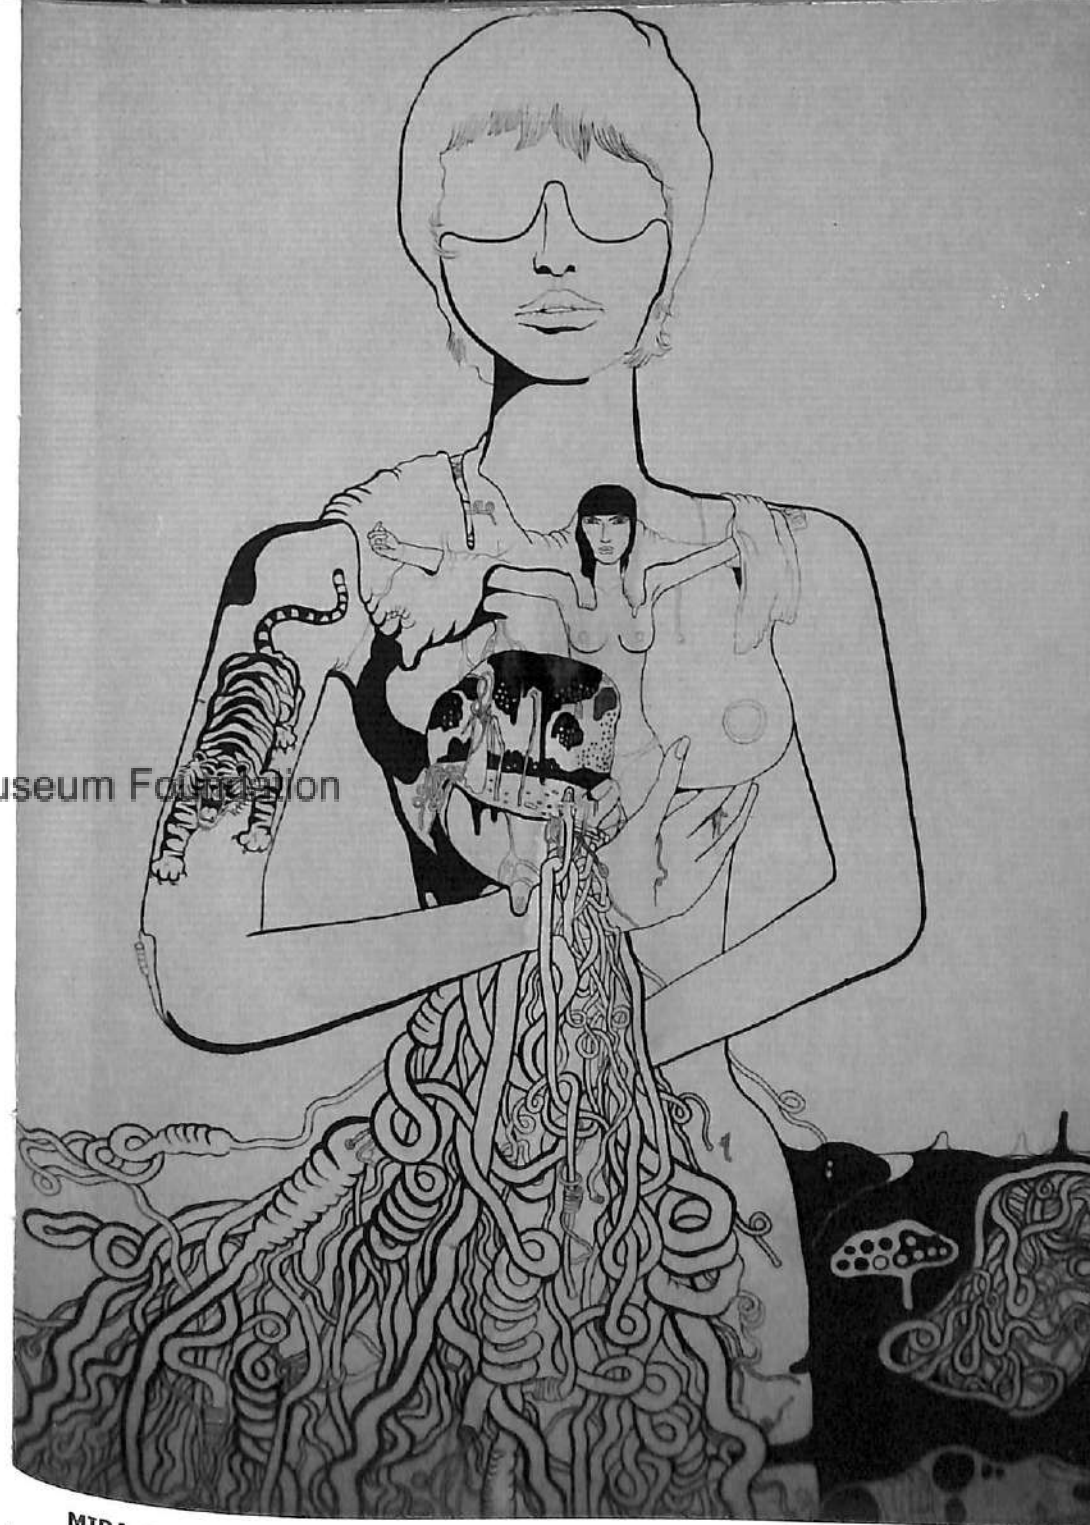

I have known Thaweesak Srithongdee from the late 90's when I first saw his works and was curious about his fantasy figures with bright colours and twisted bodies. Thaweesak has continued to develop his own style and has become one of Thailand's leading artists, with an international reputation. He is an accomplished artist not only in painting, but also in drawing cartoons and lately producing videos and installations.

Thaweesak Srithongdee is a keen observer of people, their traits and physical and mental characters. Using his imagination, he goes on to ponder whether people's looks are related to their behaviour, culture, social standing and other aspects. The result is a series of pop-erotic paintings where his works are filled with symbols and show his interpretations of and feelings towards other human beings. As viewers react differently to various symbols, he expects people to see his works in a variety of ways using different interpretations.
